Subject: Application for Ecommerce Manager – Mario Breljak

Dear Hiring Team,

With over a decade of hands-on experience managing digital platforms, driving conversion rate optimization (CRO), and building multi-market web environments, I was thrilled to see your opening for an Ecommerce Manager. Having operated across both international agency client portfolios and enterprise-level web ecosystems, I have the exact mix of platform ownership, analytical depth, and execution mindset needed to scale your online stores.

Beyond meeting all your core requirements, I directly bring the background you are looking for across your **Highly Desirable** criteria:

- **Multi-Store & International Experience:** I have managed and optimized e-commerce operations, product catalogs, and localized storefront setups for brands operating across Switzerland, the US, Denmark, and global markets.
- **Full Google Ecosystem Mastery:** I routinely leverage Google Search Console, Google Merchant Center, GA4, and Google Tag Manager to diagnose technical performance, streamline product feeds, and align tracking with revenue targets.
- **Content Publishing & Technical SEO:** From product taxonomies and Metafields to SEO best practices (Yoast, site speed, and structured data), I ensure onsite content is accurate, search-optimized, and on-brand.
- **Data-Driven CRO:** Conversion rate optimization is at the core of my approach—I have repeatedly executed split/multivariate testing roadmaps that significantly boosted lead generation and online sales (e.g., quadrupling conversion rates from 2% to 8% at LightLounge).
- **Agency Coordination & Technical Execution:** I possess a strong foundation in HTML/CSS, Liquid, and custom JavaScript variables. While I can easily troubleshoot code myself, my primary strength here lies in acting as the technical bridge—translating commercial goals into clear technical requirements for external development agencies to ensure fast, bug-free deployments.

I am eager to bring my energy, customer-first mindset, and hands-on Shopify expertise to your team to help drive the next phase of your e-commerce growth.

I would welcome the opportunity to discuss how my background aligns with your upcoming goals. Thank you for your time and consideration.

Best regards,

Mario Breljak, MSc
